Meeting at Noon

September 17

This Wednesday's program will be the personal testimony of someone whose family has been struck by Alzheimer's disease. Libby Connally, executive director of the Abilene Alzheimer's Association, will introduce Teresa Lambert.

Teresa, age 54, was diagnosed with Alzheimer's disease at the age of 53 years. She is married to Mike Lambert and has two children, Chris and Melissa. Teresa's father, age 82, is in the mid-stages of Alzheimer's disease. Last year, Teresa noticed changes in herself and was diagnosed with early onset Alzheimer's disease at age 53. Teresa continues to help her mother care for her father as she struggles to cope with the disease herself.

Many Kiwanians have had experience with this disease through their own families or friends. Come and be informed.

Spiritual Aims "Speed Bumps and Pot Holes"

I don't know about you, but I am sometimes frustrated by speed bumps. They keep me from going as fast as I would like to go. However, if I am honest, they actually keep me from going faster than I should go. The same is true of the hindrances that come into our life. They may sometimes frustrate us, but they may also cause us to show down and help us to avoid some of the pot holes we may encounter.

Consider it pure joy, my brothers, whenever you face trials of many kinds. James 1:2 (NIV)
